

Keller Williams NY Realty
120 Bloomingdale Road, 1st Floor
July 6, 2017 ♦ 7 p.m.

Plan now to attend!

Create stunning photos like a professional using your mobile device—with free apps.

Jim Iscaro will demonstrate how to turn a commonplace snapshot taken on your smartphone, tablet, or scanned photo into an artistic photograph using free apps.

Both major portable operating systems (iOS and Android) will be covered. The apps —Adobe Lightroom Mobile, Adobe Photoshop Fix, Adobe Photoshop Mix, Google Photos, and Google Photoscan—are freely available on the Apple App Store and the Google Play Store.

Jim Iscaro is a longtime computer user and programmer (since the IMSAI 8080 and Commodore PET days) and an amateur photographer. Jim will combine his skills from both fields to demonstrate applications on portable devices that rival professional desktop photo-editing programs.

Come to July’s meeting and see how you can turn the ordinary into the extraordinary.

For further information, contact Tom Osbeck at 914-720-1075 or email programs@wpcug.org.

MEET PIERRE DARMON, PH.D., WPCUG PRESIDENT

Pierre Darmon, Ph.D., has been in the IT industry for over 30 years. He held many management and non-management positions at IBM, and is now a PC/Mac computer support and education consultant, serving businesses and individuals.

He served as one of the directors of the WPCUG for the past two years, and regularly teaches workshops on many different technology topics at various venues throughout Westchester. For the past four years, he has presented at General Meetings and has led a well-attended series of one-time workshops, including one focused on IBM's breakthrough technology: Watson.
