## Macrium

Complete data security is more important than ever.

Whether you're protecting your home or business PCs, Macrium states it has a range of reliable solutions for you.

Our October presenter will describe the many features of this backup and recovery product.

For further information,  
email [programs@wpcug.org](mailto:programs@wpcug.org).

It's September and we are almost back to normalcy except the WPCUG Board of Directors voted to continue our workshops online through the end of 2021 as COVID is still raging.

We want our members to stay home and stay safe. Instructions to log on to our workshops and General Meetings can be found on page 15.
